Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Low / Dry Production Well, Arbuckle, Colusa County

- The Cal OES Inland Region Duty Officer advises that a fully occupied housing development of approximately 50 homes in Arbuckle, Colusa County has a dry or a low production well.
- The housing association has been providing drinking water and on 06/07/15 the Fire Department was called in to assist.
- The County was unaware as the housing association had not advised Environmental Health or OES.
- The City of Williams Fire Department has a water tanker on standby in case of a fire.
- If the residents need additional potable water Colusa County OES has a potable water tanker available for immediate response.
- Colusa County OES will meet with the water association to find out details and will submit a WebEOC update tomorrow.

Fox, Vegetation Fire, Mormon Bar, Mariposa County

Location: Ben Hur Road x Foxfield Lane, south of Mormon Bar, Mariposa County

Jurisdiction: SRA

Start Time: 06/07/2015 at 1208 hours

Per CALFIRE and Cal OES Duty Officers as of 06/07/15 at 1424 hours:

- 24 acres, 20% Contained
- Per the Cal OES Fire Duty Officer:
 - Aircraft has been placed on a load and hold and the forward rate of spread has been stopped.
- Per the Cal OES Law Duty Officer:
 - Mariposa County Sheriff Dispatch advises approximately 10 - 20 homes have been evacuated as a precaution in the area of Lookout Mountain Road, Daffodil Road, and Alamo Creek Road.
- Per the Cal OES Inland Region Duty Officer:
 - Mariposa County OES advises that Red Cross has opened an Evacuation Center at the New Life Church, 5089 Cole Rd. The evacuation center is expected to be closed down in a few hours.

Train Derailment, Oakland, Alameda County

- On 06/07/15 at 1025 hours the California State Warning Center (CSWC) received a report indicating that one locomotive derailed upright in the West Oakland Rai Yard in Oakland, Alameda County (SPILL: 15-3192).
- There were no reported injuries and no release of hazardous materials.
- The CSWC made all pertinent notifications.

Train Derailment, Bloomington, San Bernardino County

- On 06/07/15 at 1115 hours the CSWC received a report indicating that one locomotive derailed upright at the Roundhouse Locomotive Facility in Bloomington, San Bernardino County (SPILL: 15-3194).
- There were no reported injuries and no release of hazardous materials.
- The CSWC made all pertinent notifications.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

- On 05/19/15 at 1243 hours the California State Warning Center received a report from the Santa Barbara County Fire Department indicating that a ¼ mile sheen was observed off of Refugio State Beach, near Goleta, Santa Barbara County.

Proclamations

- Governor Brown Proclaims a State of Emergency in Santa Barbara County to Assist Oil Spill Response.
- <http://gov.ca.gov/news.php?id=18967>
- A Proclamation from Santa Barbara County has been received. The County is not requesting CDAA at this time.
- On 05/22/15 City of Goleta submitted a Proclamation of Local Emergency. The City is not requesting CDAA at this time.
- On 05/23/15 the University of California Santa Barbara submitted a Proclamation of Campus Emergency with no requests at this time.

Activations

On 05/27/15:

- The State Operations Center is activated at Level 1.
- The Southern Region Emergency Operations Center (REOC) is activated at Level 1.
- Santa Barbara EOC is activated at Level 1.
- The ICP, is located at 461 S. Fairview Ave., in Goleta, and has an Operational Period of 48 hours: 0700 to 0659 hours
- Ventura County OA EOC is activated at Level 1.

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Deployments

- Unified Command
 - Federal on Scene Coordinator: US Coast Guard (USCG) & the Environmental Protection Agency (EPA).
 - State on Scene Coordinator: CA State Parks & CA Fish and Wildlife (CDFW).
 - Local on Scene Coordinator: Santa Barbara County Office of Emergency Management (OEM).
 - Tribal Coordination: Santa Ynez Chumash Tribe, Owl Clan Consultant representing the three Clans: Barbareno, Coastal and Southern Owl.
 - Responsible Party: Plains All American Pipeline LLC.
- Cal OES Deployments
 - Two ESC's from Cal OES Southern Region, Ports and Harbor Representative
 - Two ESC 's from Cal OES Southern Region, Agency Representative

Responding Agencies

Federal

- USCG, Pipeline and Hazardous Materials Safety Administration (PHMSA), EPA, US Fish and Wildlife, and NOAA.

State

- Cal OES, CA State Parks, Cal OSPR, CA Fish and Wildlife, Cal Volunteers, CA Department of Transportation, California Highway Patrol , University of California Santa Barbara and California Coastal Commission.

Local

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

• **Response and Clean Up Efforts**

- Per Cal OES Southern Region Emergency Operations Center Situation Report:
- An investigation of the shoreline has revealed approximately 51.70 miles of shoreline impacted by the oil spill. Total shoreline area impacted by the oil spill is approximately 40.30 miles. Impacts to the shoreline have been identified as follows:
 - As of 06/06/15 at 2000 hours, offshore skimming operations resulted in 0 gallons of oily water mixture being collected, making the cumulative total of 14,267 gallons since the initial notification.
 - Four Shoreline Clean-up Assessment Teams (SCATs) have been surveying shoreline to assess extent of impact. Most areas are under 30% coverage.
 - As of 06/06/15 at 2000 hours, the following has been collected onshore:
 - 660 cubic yards of oiled sand
 - 660 cubic yards of oiled vegetation
 - 300 cubic yards of oiled debris/PPE
 - 3,840 cubic yards of oiled soil
 - 70 cubic yards of culvert soil
 - 165 yards of absorbent
 - A majority of the onshore oil impacts exist on beaches, cobble, riprap, and on rock faces between Arroyo Hondo (Santa Barbara County) and El Capitan Beach. Light oiling has been discovered as far as Point Mugu (Ventura County) to the east and 2 miles west of Arroyo Hondo to the west.
 - As of 06/07/15 at 0800 hours, approximately 79.71 miles of shoreline was assessed, of that:
 - 3.97 miles was heavily impacted
 - 18.23 miles was moderately impacted
 - 24.13 miles was lightly impacted
 - 4.68 miles was very lightly impacted
 - 21.68 miles was reported with tar balls
 - 7.02 miles was identified with no impact.
 - To date, the total miles of impacted shoreline are, 72.69 miles.
 - Chumash Tribal Members continue to provide cultural and archeological guidance and oversight as needed. [As of 6/06/15 at 1900 hours 54 cultural monitors and 10 archeologists are supporting the response.](#)

Wildlife

- The Oiled Wildlife Care Network (OCWN) continues to conduct wildlife monitoring and recovery efforts.
- [As of 06/06/15 at 1900 hours, CDFW reported 60 birds captured, 149 birds dead for a cumulative total of 209 Birds; 44 mammals captured, 72 mammals dead for a cumulative total of 116.](#)

SITUATION SUMMARY

SPILL: 15-2785, Refugio Beach, Goleta, Santa Barbara County

Resources

- Per Cal OES Southern Region Emergency Operations Center Situation Report:
- As of 06/06/15 at 2000 hours, there are a total of 1,266 personnel from all organizations currently responding to the incident. There are 119 personnel in the ICP, 1,147 in field operations.
- There are currently 17 vessels being utilized to perform boom, skimming operations, and decontamination offshore. Vessels not currently in use are being staged in the Ventura Harbor.
- There are 2 contracted aircraft (helos) deployed to this incident.

Public Information

- Joint Info Center (JIC) has been established.
 - JIC WEBSITE: <http://www.refugioresponse.com>
 - Future media inquiries regarding Refugio State Beach oil spill should call: **805-770-3682**.
- A Third-Party Claims telephone number has been established for businesses and others to report economic losses or costs due to the oil spill: 1-866-753-3619.
- The Community Relations Unit is drafting a proposal for a roundtable discussion with key stakeholders of the Santa Barbara business community to include the Chamber of Commerce.

Volunteers

- California Volunteers is leading the efforts to coordinate spontaneous volunteer activities related to the Refugio Incident. Volunteer activities are currently on hold. Cal Volunteers will continue to monitor the situation and identify any additional opportunities for volunteer beach cleanup events.
- The public can assist by visiting this website <https://calspillwatch.dfg.ca.gov/Spill-Archive/Refugio-Incident/Volunteer> or by reporting oiled wildlife by calling 877-UCD-OWCN (not a volunteer line).

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

Hurricane Blanca

- Hurricane Blanca continues to move north along the Baja Peninsula. This storm is expected to weaken to a tropical depression along the peninsula by Monday evening. The remnant moisture from this storm will be directed northward into the desert southwest however confidence is still low in exactly where the bulk of this moisture will go. There is potential for widespread precipitation from steady rain or showers and thunderstorms. The probable location for the below impacts will be areas southeast of I-15, however chances for these impacts exist over the entire region. The array of potential outcomes with this system range from little activity, to widespread steady rain, to widespread thunderstorms with life-threatening flash flooding.

Heat Advisory

- The recent cooler than normal weather will be replaced by very warm to hot readings on Monday, 06/08/15 for most inland locations. In light of the recent string of cooler than normal days, many people may be caught off guard by the warm-up. Widespread mid 80s to mid 90s are expected with a few spots into the lower 100s through Monday afternoon and evening. Most inland locations and the South Bay will be impacted; however, this does not include the city of San Francisco.
- A heat advisory is now in effect for the following: Alameda, Contra Costa, Marin, Monterey, Napa, San Benito, San Mateo, Santa Clara, Santa Cruz, and Sonoma Counties.

WEATHER

WEATHER SYNOPSIS BY REGION:

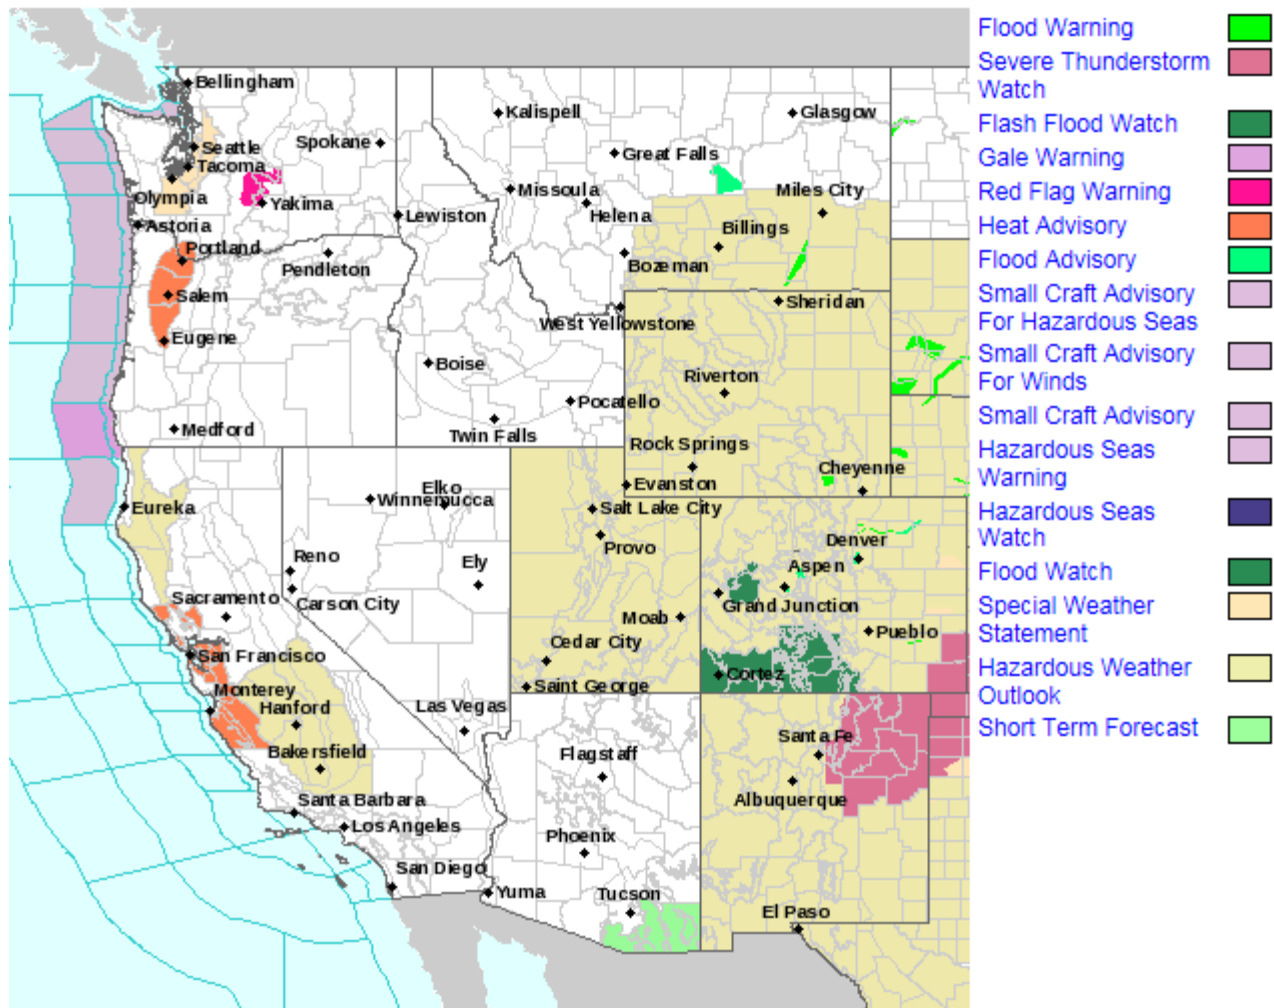

NORTHERN CALIFORNIA

High pressure ridge will build into Northern California this weekend, bringing the hottest and driest weather of the year so far. Most thunderstorm activity shifts out of our region today. Another hot and dry day is expected. Winds today will be northeast/offshore at light to moderate speeds. There could be some localized critical issues with increased initial attack, but most fuels are not quite dry enough to support a widespread large fire threat. Another round of showers and thunderstorms predicted for the middle of the week, followed by stronger high pressure with more hot and dry weather.

SOUTHERN CALIFORNIA

High pressure will build into the region during the next couple of days while a weak area of low pressure remains offshore. Onshore flow will decrease and the marine layer will become shallow with low clouds and fog confined to areas closer to the coast today and Monday. Daytime highs by Monday will climb to near 100 degrees in the San Joaquin Valley and the central coast interior valleys, with the Southern California valleys well into the 90s. Minimum relative humidity will range from 18-25% over most areas outside the desert. Isolated showers and thunderstorms will continue over the Sierra with far fewer lightning strikes expected as compared to the previous days. By Tuesday, the main forecast concern will be the northward progression of remnant moisture from what is currently Hurricane Blanca. The bulk of this moisture will likely remain east of the region, but it appears that there will be enough moisture and instability to generate scattered showers and thunderstorms across the area from the Cleveland and San Bernardino National Forests eastward to the Arizona border. Some of this moisture may push up into the Sierra by Tuesday afternoon and Wednesday with increased thunderstorm activity possible. The remainder of Southern California will see an increase in mid and high level clouds along with higher humidity levels on Tuesday. A weak trough will move through the region on Wednesday allowing temperatures to lower slightly, with the main impacts being felt along the coast as low clouds and fog further inland once again. Despite the trough, it may become warmer across the southern and eastern mountains and deserts due to less moisture and clouds. High pressure will return to the area Friday and into the weekend with daytime highs over much of the area warming to above normal temperatures.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 57 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 11 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County), City of Porterville (Tulare County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

CAL OES MISSIONS

Closed Cal OES Missions

- **2015-LAW-12979, 6/6/15 AT 1707 hrs.** IERCC advised of a Delorme activation at 37° 5' 14" by -118° 29' 34", which plots to 13,000 foot elevation of Kings Canyon National Park, near Scimitar Pass. This is at the extreme east end of Fresno County. The Delorme device had two way capability. The victim advised he was hiking alone when he twisted his ankle and could no longer walk. He had shelter and provisions. Kings Canyon National Park accepted the mission and was preparing to extract the subject on the morning of 6/7. **Update 6/7 1000 hours,** [Per Sequoia Kings National park, they had successfully extracted the subject and were in route to Bishop for medical treatment.](#) **Mission Closed**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
